# ScanCrypt

Post-Quantum Cryptographic Security Assessment

| | |
|---|---|
| **Project Name** | integration-test |
| **Analysis Date** | 2026-07-09 20:50:55 |
| **ScanCrypt Version** | 1.0 |
| **Algorithm** | ML-KEM / Kyber |
| **Security Level** | ML-KEM-768 / Kyber768 |
| **Implementation Type** | Portable C / Reference |

**Medium**

## Confidentiality Notice

This document contains confidential assessment details based on ScanCrypt analysis. Unauthorized disclosure is prohibited.

Report generated automatically by ScanCrypt.

# Executive Summary

| | | | |
|---|---|---|---|
| **Overall Risk** | Medium | **Algorithm** | ML-KEM / Kyber |
| **Security Level** | ML-KEM-768 / Kyber768 | **Implementation Type** | Portable C / Reference |
| **Programming Language** | C/C++ | **Build System** | Unknown |
| **Files** | 2 | **Source Files** | 1 |
| **Header Files** | 1 | **Lines of Code** | 120 |
| **Rules Executed** | 0 | **Rules Passed** | 0 |
| **Rules Failed** | 0 | **Analysis Confidence** | 95% |
| **Detection Confidence** | 95% | **Analysis Duration** | N/A |

**Critical: 0**

**High: 0**

**Medium: 0**

**Low: 0**

**Information: 0**

# Project Inspection

| | |
|---|---|
| **Algorithm** | ML-KEM / Kyber |
| **Security Level** | ML-KEM-768 / Kyber768 |
| **Implementation Type** | Portable C / Reference |
| **Programming Language** | C/C++ |
| **Build System** | Unknown |
| **Files** | 2 |
| **Source Files** | 1 |
| **Header Files** | 1 |
| **Lines of Code** | 120 |
| **Detection Confidence** | 95% |

## Detection Evidence

• KYBER_K = 3

# Findings Summary

| Rule ID | Severity | Category | Status | File | Line |
|---|---|---|---|---|---|
| No findings | | | | | |

# Detailed Findings

No findings were detected during analysis.

# Rule Execution Summary

No rule execution data available.

# Statistics

**Total rules executed**
0

**Passed rules**
0

**Failed rules**
0

**Analysis duration**
N/A

**Files analysed**
2

**Source lines analysed**
120

## Execution Progress

Passed: 0 / 1

Failed: 0 / 1

# Appendix

## Analysed Files

poly.c

poly.h

**Tool version**
1.0

**Report generated**
2026-07-09 20:50:55

**Scan configuration**
Not available

**Supported algorithms**
ML-DSA (Dilithium), ML-KEM (Kyber)

**Supported implementation types**
Portable C / Reference, AVX2 Optimized, ARM Cortex-M / Embedded, Masked Implementation, Hardware / FPGA
